

BGI HACKATHON 2026

IDEA SUBMISSION

- **Theme-** Agriculture, FoodTech & Rural Innovation
- **Problem Statement ID** – BT3P2
- **Problem Statement Title-** Direct Farmer-To-Consumer Digital Marketplace Platform
- **Problem Statement Category-** Software
- **Team ID-**
- **Team Name (Registered on portal)** – FreshCode Farmer's

FreshCode Farmers - Direct Farmer to Consumer Marketplace

Solution Overview

1. FreshCode Farmers is a digital platform that connects farmers directly with consumers, eliminating intermediaries.
2. Farmers can list their products, and consumers can easily browse and purchase fresh produce.
3. The platform ensures fair pricing, transparency, and better income for farmers.

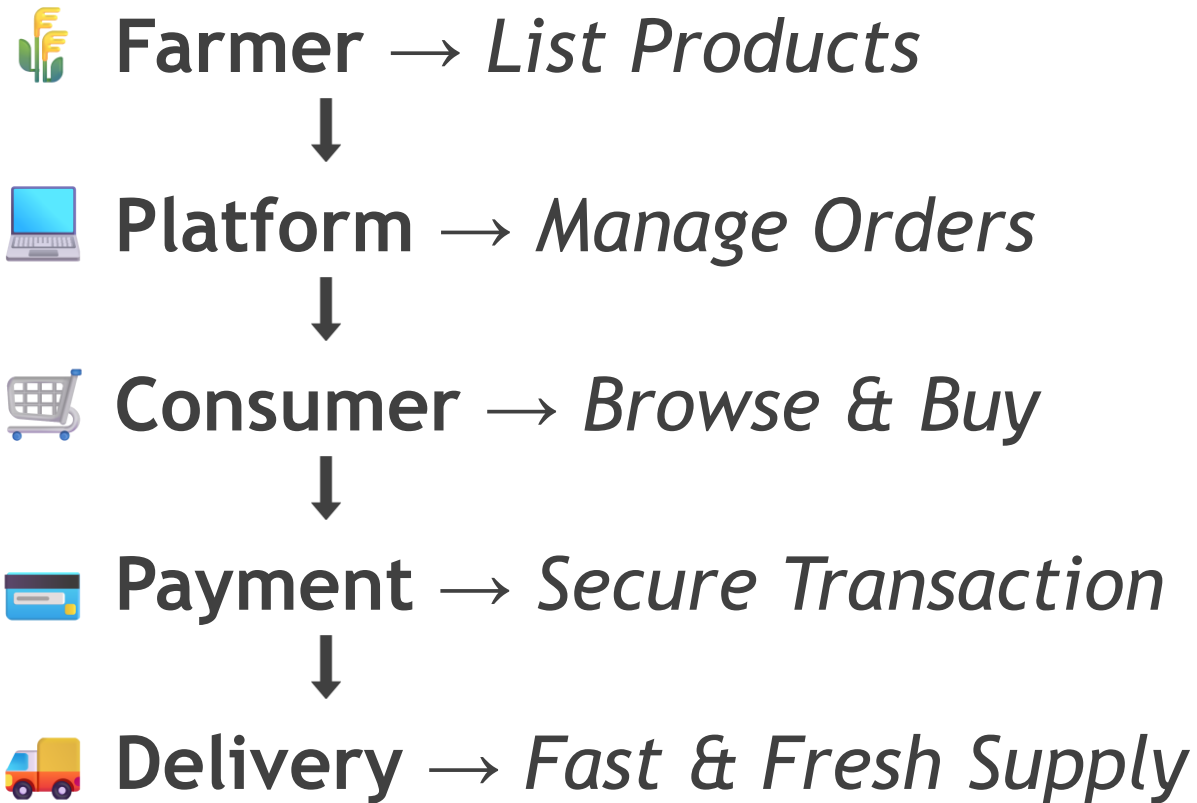

Technologies-:

- HTML, CSS, JavaScript (Frontend)
- Node.js / Java (Backend)
- MySQL (Database)
- UPI / Razorpay (Payments)

Methodology

- Farmers list products with price and details
- Consumers browse and place orders
- Secure online payment is processed
- Orders are delivered via local logistics with tracking

Flow Diagram

FEASIBILITY AND VIABILITY

- Feasible due to high smartphone & UPI usage
- Challenges: awareness, logistics, trust
- Solutions: simple UI, local delivery, rating system

IMPACT AND BENEFITS

Impact on Target Audience-:

- Empowers farmers with direct market access
- Provides consumers with fresh and affordable products
- Supports local vendors and boosts regional trade

Benefits-:

- **Economic:** Higher income for farmers, reduced costs for consumers
- **Social:** Farmer empowerment and better rural livelihoods
- **Environmental:** Reduced transportation and lower carbon footprint
- **Technological:** Promotes digital adoption in rural areas
